

Name:

Class:

**Core Technical Principles: Materials and Their Working Properties**

	Red	Amber	Green
MWP1 I can know and understand the categories of the types and properties of papers and boards			
MWP2 I can know and understand the categories of the types and properties of natural and manufactured timbers			
MWP3 I can know and understand the categories of the types and properties of metals and alloys			
MWP4 I can know and understand the categories of the types and properties of polymers			
MWP5 I can know and understand the categories of the types and properties of textiles			
MWP6 I can understand the physical properties of materials			
MWP7 I can understand the mechanical properties of materials			
MWP 8 I can know and understand the uses of papers and boards			
MWP 9 I can know and understand the uses of natural timbers			
MWP 10 I can know and understand the uses of different types of metals and alloys			
MWP 11 I can know and understand the uses of polymers			
MWP 12 I can know and understand the uses of textiles			

## **Worksheet 1 Papers and boards**

### Unit 3 Materials and their working properties
