

YEAR 10 Spring 2

'An ambitious curriculum that meets the needs of all'

Medium Term Planning - Topic: Religion, Peace and Conflict

Curriculum Intent	<p>Why do we teach this to students?</p> <p>Students study this as part of their GCSE Religious Studies. This topic will allow students to complete their RS GCSE Paper 2 their Thematic Studies Paper. Students should be aware of different religious perspectives on the issues studied within and / or between religious and non-religious beliefs such as atheism and humanism. Students must also study religious, philosophical and ethical arguments related to the issues raised, and their impact and influence on the modern world. Students should consider different beliefs and attitudes to religious and non-religious issues in contemporary British society</p> <p>Why do we teach this now?</p> <p>Students are now familiar with both elements of the GCSE – a study of religion and the thematic study. Students have been alternating between the papers. Students have just completed a unit on Jewish beliefs. Students move onto a theme and apply the beliefs that they have studied in Christianity and Judaism. Students now have a sound understanding knowledge of the Jewish beliefs which will allow students to explore in detail concepts such as the key moral principles, the messianic age and how these feature in a religious view on war on planet earth.</p> <p>Students need to study 4 of 6 themes for the second RS GCSE paper. This is the third of the 4 themes, Theme D: Religion, Peace and Conflict.</p>

They will summarise teachings, ideas, arguments etc. This also allows students the opportunity to clarify - discussion of any words or ideas that the student didn't understand.</p> <p>Writing: RS GCSE is a literacy based subject. Students are supported in developing their answers to explain the beliefs and impacts of those beliefs. Students are also working on developing contrasting arguments to evaluate the ideas raised. This written work takes the form of 4, 5 and 12 mark answers.</p> <p>Oracy: Students need to be able to articulate their own ideas and beliefs as well as discuss this with other students. Then sharing of ideas through discussion allows students to understand different points of view. Questioning of their points of view also allows them to develop their reasoning so that their arguments can stand up to scrutiny.</p>
Becoming future ready	<p>RS students develop:</p> <ul style="list-style-type: none">- the ability to build and interrogate arguments and how to question and evaluate narratives- critical thinking skills and the ability to interpret information, formulate questions and solve problems- organisational and time management skills- teamworking and communication skills- writing skills, including accurate referencing and the ability to construct a reasoned argument- empathy and the ability to understand people and their motivations- the ability to appreciate different perspectives and take on board others' views- the ability to work methodically and accurately- independence of mind and the ability to think for yourself. <p>Conflict is a part of our world. It will also allow them to recognize the complex nature of wars and the role that religion plays in supporting those affected by war. It will allow students to partake in discussions relating to this topic.</p>
Adaptation	<p>Throughout this topic, quality first teaching will provide differentiation:</p>

QFT/SEND Provision	<p>By product: differential outcomes using must, could, should.</p> <p>By resource: PowerPoints have different levels of differentiation to access, ‘key points’ extension, stretch and challenge.</p> <p>By Intervention: by providing different levels of supervision and support, revision drop ins, catch up sessions.</p> <p>By Progressive Questioning: exploring pupils’ understanding through interactive dialogue.</p> <p>By Grouping: according to prior attainment, gender and behaviour</p> <p>By Task: Many tasks are scaffolded to support students, where there is a choice of task students are supported in choosing the task which will best support them to achieve their ability.</p> <p>By Offering Optional Activities: In class or as homework, to extend learning.</p>			
Implementation Curriculum Delivery	#	Lesson Title, Lesson Objectives, Scripture: Suggested retrieval	Lesson builds upon:	This will be developed in:
Learning Outcomes (Knowledge)	1	Intro To know why the topic of war and peace is relevant in contemporary Britain,	This is a series of lessons across all GCSE units where students explore the place in today’s society for this study and links to ‘future ready’ This builds upon the Christian Beliefs intro lesson.	The starter lessons in all GCSE units.

	5	Just War To explain what the just war theory is and how it applies to a modern conflict. <i>God as lawgiver and judge</i>	Students look at the just war theory as an only reason for war – a contrast to the reasons explored in L4	Students will compare this with a holy war in L6 and explore if this is supported by religious teachings on peace.

Current learning to be developed in the future within:		<ul style="list-style-type: none"> To know that Aquinas developed the Just war theory. To know that the just war theory was brought in to stop Christians going to war. To know that a Just war has a just cause to re-establish peace, that force must be proportionate, that it must be started by an appropriate authority, that innocent lives must not be lost and that it must be a last resort. To know that modern warfare does fulfil the just war criteria. 		
	6	Holy War and <i>KAT</i> To explain Holy War criteria and explore if religion is a cause of war and violence. <i>The messianic age</i> <ul style="list-style-type: none"> To know that Holy wars must be started by a religious leader or God, they must have a religious goal – to save the religion or its people and a reward e.g. heaven. Students look at how WMD's and modern warfare will prevent future holy / just wars.

To know that only certain countries are allowed to own nuclear weapons. To know that mutually assured destruction is a reason they are used as a deterrent. Students explore the nature of WMD's and if WMD's can prevent wars from being just.	Arguments against WMD's are explored further when gaining a full understanding on religious teachings of peace.
	6	Pacifism & working for peace To explain what pacifism is and religious teachings which support pacifism as an alternative to conflict. <i>Incarnation</i> <i>Specification requires Jewish and Christian attitudes.</i> <ul style="list-style-type: none"> To know that pacifists are against war and violence. To know the difference between absolute and relative pacifism. To know that Quakers are a pacifist group. To know that Jesus taught to 'love your enemy' 'turn the other cheek.' And that he told peter to put away his sword. To know that MLK/Desmond Doss are examples of pacifism. 	This develops on the key concepts which started the unit and supports the reasoning in all lessons as to why Christians are against war, violence and terrorism.	Students will explore how these teachings prompt religious people to respond to war – by supporting victims of war
	7	Responses to Victims of war To explain what can be done to help victims of war. <i>Sheep and goats</i> <ul style="list-style-type: none"> To know that Christians help victims of war. Students look at how teachings on peace motivate Christians to respond in times of war.	This unit is revisited in retrieval starters and revision lessons.
