

YR7 PLC Review

HS1: I can know a range of health and safety rules

HS2: I can understand why there are rules in the workshop when working with hand tools

AI1: I can know what the Alessi design style looks like

AI2: I can design a range of ideas following the Alessi design style

AI3: I can model in paper and card a final model of a kitchen role holder based on the Alessi design style

AI4: I can evaluate my product and suggest improvements in the form of a Big Write.

PhF1: I can design using the “Jack Straws” technique

PhF2: I can select and use the correct tools and equipment to make my photo frame

PhF3: I can apply quality control measures in order to achieve a good quality product

PhF4: I can evaluate my work and ask others what they think in order to improve my photo frame

SP1: I can know how packaging is used to protect, promote, preserve and transport the product

SP2: I can design a logo for my sweetie pie packaging

SP3: I can use the die cutter to cut out my net

SP4: I can design the packaging surface decoration

SP5: I can enlarge and minimise my logo in order to fit on my packaging
